

EI WEB APP

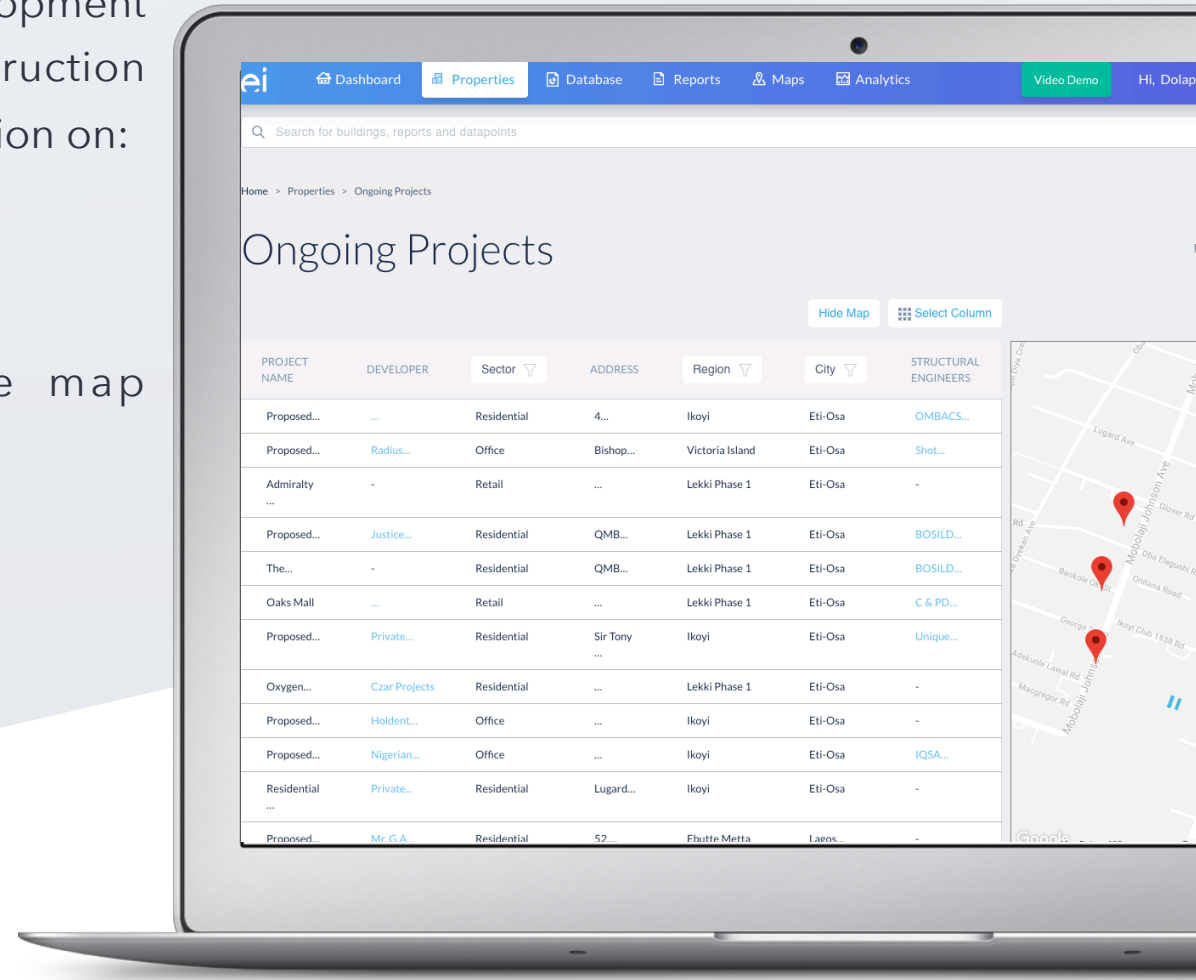

ONGOING CONSTRUCTION LIST

ONGOING PROJECTS

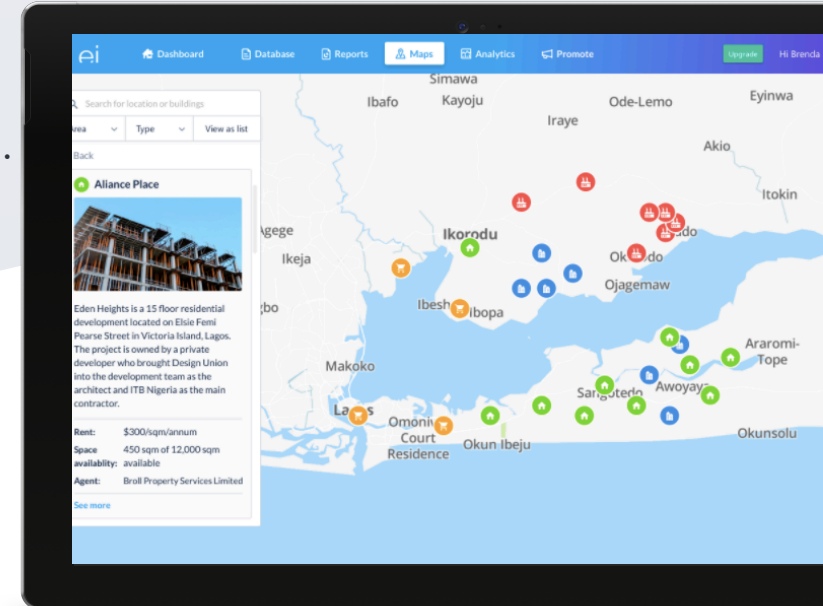

Get access to a comprehensive database of ongoing projects across the country to target your business development efforts and understand construction activity. The list provides information on:

- Project Name;
- Developer;
- Exact Location on a live map (including geo-code);
- Architect;
- Main Contractor;
- Engineers;
- Project Manager;
- and much more.

HOW IT HELPS?

- Business Development Team members and Managers can use their phone or computer and manage all leads instantly by viewing all projects under construction.
- Filter projects by location, type and project status to focus on what matters to you.
- View company emails, phone numbers and addresses of project team members to know where to send proposals.
- Use exact geo-code to identify and visit projects.
